

PROFESSIONAL SUMMARY

Dynamic Frontend Developer with over 3.4 years of experience in crafting responsive, user-friendly web applications using React.js, Next.js, Redux, TypeScript, and modern CSS frameworks. Expertise in API integration and performance optimization, along with a strong ability to create pixel-perfect user interfaces from Figma designs. Proven track record of contributing to high-impact projects, including HRMS platforms, government health systems, and educational web applications, reflecting a commitment to delivering exceptional digital experiences. Adept at collaborating with cross-functional teams to drive project success and enhance user engagement.

SKILLS

- JavaScript
- TypeScript
- React.js
- Next.js
- Redux
- Node.js
- SASS
- Bootstrap
- HTML
- CSS
- Tailwind CSS
- Figma
- Jira
- GIT

WORK HISTORY

Web Developer, Nov 2024 – Mar 2025

Sawalsha Leasing & Finance

- Designed and developed a comprehensive HRMS with features like employee management, payroll processing, and attendance tracking, along with a dynamic, user-friendly website.
- Developed and managed backend functionalities using Next.js API routes, implementing robust database management and server-side logic to support core HRMS features, while ensuring a seamless and responsive UI with Tailwind CSS.
- Created and integrated APIs for efficient data exchange, enhancing system interoperability, while also handling additional website projects.
- Enhanced application performance by 25% and user experience through front-end features developed with ReactJS, TypeScript, and Redux for state management.
- Improved React and TypeScript best practices mastery by 50%, and reduced user-reported bugs by 20% in an Agile environment through code reviews and pair programming.
- Developed responsive web applications using HTML, CSS, and JavaScript, enhancing user experience and engagement across platforms.
- Collaborated with cross-functional teams to gather requirements and implement web solutions, improving project delivery timelines.
- Implemented best practices in web design and development, ensuring high performance and compliance with industry standards.
- Optimized existing code and databases to improve load times and functionality, resulting in streamlined operations.

Front end Developer, Apr 2022 – Jun 2024

National Informatics Centre

- Designed and developed over 10 software systems, including custom dashboards, login pages, and drag-and-drop functionalities from scratch.
- Key contributor to the "ABHA" feature in the Arogya Setu app, enabling user health status input for public health monitoring.
- Created an efficient feedback form to enhance user interactions, improving the collection of user feedback, and addressing customer concerns.
- Developed and maintained responsive user interfaces using HTML, CSS, and JavaScript, enhancing user experience across applications.
- Collaborated with cross-functional teams to gather requirements, ensuring alignment with business objectives and user needs.

- Implemented Agile methodologies, facilitating sprints that improved project delivery timelines and team productivity.
- Conducted thorough testing and debugging of applications, ensuring high-quality performance and swift resolution of issues.
- Reviewed code to validate structures, assess security and verify browser, device and operating system compatibility.

Web Developer, Feb 2021 – Feb 2022

Magic Software

- Developed educational software across multiple subjects, and created accessible content packages using HTML5, CSS, and JavaScript to enhance learning experiences.
- Utilized Subversion (SVN) for version control, ensuring the maintenance of current and historical versions of source code, web content, and documentation.
- Developed and customized WordPress websites, aligning with client needs, and demonstrating web development expertise.
- Presented website proposals and provided technical support, ensuring client satisfaction, and resolving issues efficiently.
- Conducted regular testing and debugging of applications, maintaining quality and reliability in all web projects.
- Resolved technical issues promptly, ensuring minimal disruption to website performance and user satisfaction.
- Reduced load times and improved site speed by optimizing images, scripts, and other assets.
- Oversaw technical issues and troubleshooting requests to resolve user problems.

EDUCATION

Bachelor of Technology: Information Technology, 2015- 2019

Dr. A.P.J. Abdul Kalam Technical University

Senior Secondary Certificate: 2014

Godwin Public School

Higher Secondary Certificate: 2012

Godwin Public School
