Certified online training on web development with Nodejs.

Experience

Software Engineer- 05/2023 to Present
Lynkit Solutions Pvt. Ltd., Gurgaon, Haryana

Role and Responsibilities: -
- Designed and developed 40+ software systems and custom components, leveraging ReactJS, Redux, and RTK Query for efficient data fetching, caching, and front-end functionality.
- Created dynamic themes, including color schemes, logos, and favicons, for a flexible and customizable user interface.
- Architected a microservices-based system to enhance scalability and reliability, with real-time communication enabled via Socket.io between microservices and client.
- Implemented Redis and RabbitMQ for improved data handling, alongside aggregation queries to optimize API performance.
- Developed and integrated CRUD APIs and third-party logistics APIs (e.g., Delhivery, BlueDart) and built a dynamic form service, reducing manual intervention by 70%.

PROGRAMER ANALYST - 04/2022 to 03/2023
Launchpad Fintech Pvt Ltd, Gurgaon, Haryana

Role and Responsibilities: -
- Developed and customized 25+ software systems and components, including dashboard, KYC, and market watch, from scratch for the Bonds India platform.
- Built and maintained both client-side and admin-side functionalities in the bond market application using ReactJS and Redux for seamless front-end experiences.
- Implemented validations, functionalities, and integrated APIs on the front end to ensure robust performance and accuracy.
- Redeveloped the Bonds India business website with ReactJS and NodeJS, modernizing the platform's stack.
- Integrated WebEngage API to enhance customer engagement and improve application interactivity.

ASSOCIATE SOFTWARE DEVELOPER - 12/2021 to 04/2022
Acropolis Infotech Pvt Ltd, Noida, UP

Role and Responsibilities: -
- Designed and developed admin panel web interfaces for Parking Bud and GSO projects, enabling client interactions and managing transactions for private parking and office space rentals.
- Implemented robust frontend features including validations, core functionalities, and API integrations using ReactJS, Redux, and Google Maps API where applicable.
- Created a recruitment-focused advertisement webpage for Acropolis Infotech, prioritizing mobile compatibility, consistent browser performance, and user-friendly form designs.
- Ensured responsive design and cross-browser compatibility across applications to enhance user experience and accessibility.

FRONTEND DEVELOPER - 01/2021 to 12/2021
MAGIC SOFTWARE PVT LTD, NOIDA, UP

Role and Responsibilities: -
- Developed educational software across multiple subjects, enhancing learning experiences.
- Created and uploaded content packages using HTML5, CSS, and JavaScript for broad accessibility.
- Used Subversion (SVN) for version control, maintaining current and historical versions of source code, web content, and documentation
- I have worked of multiple projects like Go Math, Baker and Taylor and Edison.
